About Me

Highly analytical and proactive Cybersecurity Analyst with over 15 years of experience in IT infrastructure, specializing in identifying, assessing, and mitigating security risks. Possessing an autodidactic approach to learning and a commitment to continuous growth in the evolving cybersecurity landscape. Adept at leveraging a diverse range of security tools and protocols to safeguard organizational assets and ensure data integrity.

My experience spans various IT environments, including cloud platforms, virtualized systems, and on-premise infrastructure. I am committed to continuous learning and staying updated with the latest security trends and technologies. As a professional with a strong emphasis on customer service, I focus on building strong client relationships, and fostering partnerships based on mutual respect, consistency, discipline, and a growth mindset. Actively engaged in professional networks to stay abreast of industry best practices and emerging trends.

I believe in a proactive approach to cybersecurity, emphasizing the importance of clear communication and collaborative problem-solving. My background includes extensive work in system administration, network security, and incident response, where I have consistently demonstrated my ability to manage complex technical challenges effectively. I am passionate about leveraging my skills to enhance digital security postures and protect sensitive data.

Technical Skills	Software & Services
Compliance & Frameworks	ISO 27001, NIST Cybersecurity Framework, GDPR, HIPAA
Cyber Security & AV	Microsoft 365 Security, Symantec Endpoint Security, Trend Micro, Sophos, Kaspersky Antivirus, Brivo Door Access, Crowdstrike Falcon Sensor, Microsoft 365 Defender, TrendOne, Microsoft Security & Compliance
Vulnerability Management	TrendOne, Microsoft Security & Compliance, Nexthink
Identity & Access Management (IAM)	Microsoft Azure AD, OKTA SSO, Brivo Door Access, RSA tokens
Cloud Security	AWS (S3, IAM, EC2, DR), Azure (Entra ID, Exchange, Endpoint Manager)
Network Security	Firewalls, VPN, DNS, DHCP, Active Directory, Group Policy
Endpoint Security	Manage Engine DesktopCentral, Microsoft Intune/Endpoint Manager, Symantec Endpoint Encryption, Bitlocker
Ticket Systems	ServiceNow, Hornbill Supportworks, LANDesk, Freshdesk ServiceDesk, Zendesk, Autotask
Scripting	Bash, PowerShell
OS Administration	Linux kernel 2.6 (various distros), MacOS X+, Windows Server Datacenter up-to 2022, Windows 95, XP – Windows 10/11

Career History

TradingHub Ltd (May 2023 — February 2025) **Senior Desktop Support Engineer (2nd/3rd Line)**

Key responsibilities

- Implemented and managed Brivo Door Access for enhanced physical and logical security, including card and access management.
